Visions Autism Center is a non-profit (501(c)(3)) organization dedicated to providing services and support to children with autism and other developmental differences. We provide one on one therapy as well as seasonal social groups. The organization was founded by parents of a child with autism. Through fundraising, we are able to provide families with much needed support and therapies as most insurances do not cover behavior therapies for autism. Visions provides services to children of all ages and developmental levels.

About Autism Spectrum Disorders
